Instalare

Setup

1. Cu fir

1. Wired mode

RO

1. Conectati mouse-ul la interfața USB a computerului.
2. Descarcati driver-ul (disponibil aici: www.aqirys.com/product/t-g-a) > Dezarhivati si instalati > Utilizati software-ul instalat pentru configurarea detaliata a mouse-ului.

EN

1. Connect the mouse to an available USB port on your computer.
2. Download the software driver (available here: www.aqirys.com/product/t-g-a) > Unpack and install > Use the software to customize your mouse settings.

Quick Start Guide

2. Fara fir

2. Wireless mode

RO

1. Conectati receptorul wireless al mouse-ului la interfața USB a computerului (direct sau utilizand adaptorul de extensie inclus si cablul USB).
2. Glisati comutatorul de alimentare in pozitia pornit (A sau B). Mouse-ul si receptorul se vor conecta automat.
3. Descarcati driver-ul (disponibil aici: www.aqirys.com/product/t-g-a) > Dezarhivati si instalati > Utilizati software-ul instalat pentru configurarea detaliata a mouse-ului.

EN

1. Connect the wireless receiver to an available USB port on your computer (directly or using the included extension adapter and the USB cable).
2. Slide the Power switch to the ON position (A or B). The mouse and receiver will automatically connect.
3. Download the software driver (available here: www.aqirys.com/product/t-g-a) > Unpack and install > Use the software to customize your mouse settings.

Iluminarea

LED System

RO

Pentru ca iluminarea sa se activeze corect, daca glisati comutatorul de alimentare din pozitia B in pozitia A, va rugam sa opriti si sa asteptati 3-5 secunde in pozitia C. Pentru ca iluminarea sa fie activa in modul cu fir, comutatorul de alimentare trebuie sa fie setat pe pozitia B in timp ce mouse-ul se afla in modul wireless!

EN

For the LED system to properly activate, if sliding the power switch from position B to position A, please stop and wait for 3-5 seconds in position C. For the LED system to be active in wired mode, the power switch must be set to position B while the mouse is in wireless mode!

Indicatorul nivelului bateriei

Battery level indicator

RO

Cand nivelul bateriei este scazut (10%), logo-ul va ilumina rosu intermitent. Conectati mouse-ul la computer folosind cablul USB pentru a incepe incarcarea bateriei (logo-ul va fi iluminat portocaliu intermitent). Odata ce bateria este complet incarcata, logo-ul va fi iluminat verde continuu.

Nota!

Pentru a conserva durata de viata a bateriei cat mai mult posibil, va recomandam sa deconectati cablul USB si sa treceti in modul wireless imediat ce incarcarea este finalizata.

EN

When the battery level is low (10%), the logo LED will blink red. Connect the mouse to the PC using the USB cable to start charging the battery (the LED will blink orange). Once the battery is fully charged, the LED will turn solid green.

Nota!

To preserve the battery life as much as possible, we recommend unplugging the USB cable and switching to wireless mode as soon as the charging is complete.

Quick Start Guide

Asocierea wireless

Wireless pairing

RO

Comutarea intre modul wireless si modul prin cablu se face automat. Daca, din orice motiv, conexiunea wireless devine instabila, mouse-ul si receptorul pot fi re-asociate. 1. Tineti apasat butonul stanga + rotita scroll + butonul dreapta pana cand LED-ul rotitei ilumineaza galben intermitent. 2. Eliberati butoanele si asezati mouse-ul langa receptor. Deconectati si apoi reconectati receptorul la portul USB. Odata ce asocierea este finalizata, rotita va inceta sa lumineze intermitent.

EN

The switch between the wireless and wired mode is made automatically. If the wireless connection becomes unstable, the mouse and the receiver can be re-paired. 1. Keep pressed the Left Button + Wheel Button + Right Button until the scroll wheel LED blinks yellow. 2. Release the buttons and place the mouse near the receiver. Unplug and then replug the receiver to the USB port. Once the pairing is complete, the scroll wheel LED will stop blinking.

Personalizare

Customization

1. Instalarea suportului pentru palma

1. Palm-rest installation

RO

Suportul palmei este magnetic si poate fi rapid detasat si inlocuit, tragand usor de marginea sa inferioara.

EN

The magnetic palm rest can be easily detached and replaced by gently pulling its lower edge.

2. Alegerea tipului de suport pentru palma 2. Choosing the palm-rest type

RO Mouse-ul permite ajustarea nivelului de suport pentru podul palmei, astfel incat sa poata functiona optim cu stilul de prindere preferat (Palm, Claw, Finger). Pentru stilurile Claw si Finger, recomandam instalarea modulelor cu profil redus (marcate Low), iar pentru stilurile Palm, recomandam modulele cu profil inalt (marcate High). Va recomandam sa instalati modulele perforate pentru a minimiza greutatea mouse-ului si transpiratia palmei in timpul jocului.

EN The mouse allows adjusting the level of palm support so it can perform optimally with your preferred grip style (Palm, Claw, Finger). For Claw and Finger styles, we recommend installing low-profile modules (marked Low), and for Palm styles, we recommend the high-profile modules (marked High). We recommend installing the perforated modules to minimize the mouse weight and palm perspiration while gaming.

3. Capacul butoanelor principale 3. Main buttons' cover

RO Capacul butoanelor principale poate fi usor detasat si inlocuit sau personalizat. Indepartati suportul palmei. Impingeti usor dar ferm tijele de blocare si trageți de marginea inferioara a capacului.

EN The main buttons' cover can be easily detached and replaced or customized. Remove the palm rest. Gently but firmly push the locking pins, and pull the lower edge of the buttons cover.

RO Detasati capacul butoanelor principale, intoarcati-l si indepartati usor distantierele instalate folosind un instrument subtire si ascutit. Lipiti noile distantiere in locul lor.

EN Detach the main buttons cover, flip it and gently remove the installed spacers using a sharp thin tool. Peel and stick the new spacers into place.

4. Feedback click Stanga/Dreapta 4. Left/Right click softness

RO Mouse-ul dvs. vine cu un set de distantiere de diferite grosimi care pot fi utilizate pentru a personaliza feedback-ul butoanelor stanga si dreapta. Grosimea este indicata printr-un numar pe distantier. Va recomandam grosimea mai mare pentru un clic cu feedback clar, tactil, si grosimea mai mica pentru un clic cu feedback usor, moale.

EN Your mouse comes with a set of spacers of different thicknesses that can be used to customize the Left and Right buttons feedback. Thickness is indicated by a number on the spacer. We recommend the higher thickness for crisp and tactile click feedback and the lower thickness for light and soft click feedback.

RO Detasati capacul butoanelor principale, intoarcati-l si indepartati usor distantierele instalate folosind un instrument subtire si ascutit. Lipiti noile distantiere in locul lor.

EN Detach the main buttons cover, flip it and gently remove the installed spacers using a sharp thin tool. Peel and stick the new spacers into place.

5. Atasarea gripurilor 5. Button and side grips

RO Mouse-ul dvs. vine cu un set de distantiere de diferite grosimi care pot fi utilizate pentru a personaliza feedback-ul butoanelor stanga si dreapta. Grosimea este indicata printr-un numar pe distantier. Va recomandam grosimea mai mare pentru un clic cu feedback clar, tactil, si grosimea mai mica pentru un clic cu feedback usor, moale.
